COMMERCIAL FITNESS

THE SPIRIT OF INNOVATION

We built our first fitness product in 1983, with the simple goal of giving our customers the highest quality equipment to help them achieve their fitness goals. It is that same simple purpose which continues today in designing and developing every piece of equipment that bears the Spirit Fitness name. We make sure that each new equipment design meets the same demanding standards that have crafted the Spirit Fitness brand.

Over the last thirty years, our focus has always been - and will continue to be -delivering a quality experience with our equipment. We understand that our products are an investment and we design them to keep pace with your own long term fitness goals. All of our products are produced in our ISO-certified factories for consistent quality.

Spirit aims to improve the quality of life for everyone. We aspire to boost your lifestyle to the next level by "Moving Your Spirit". We place customer experience and product innovation at the center of our brand, helping you accomplish your fitness goals through unprecedented product details and features tailored specifically for you.

Optional TV Bracket Available, Built in Power Port for TV Remote

СТ900

Robust construction and commercial-grade components make the CT900 the gold standard for treadmills. Specifications for the shocks, rollers, belt and deck were meticulously chosen to give users a smooth workout experience. Powder-coated steel and powerful motor allow owners to rest assured they have products that will stand the test of time

Optional(Black/Gray)

FEATURES

- · Industrial, 5.0 horsepower AC drive system provides power and longevity.
- · Roomy 22" x 62" workout surface maximizes movement in its footprint.
- · Double-sided phenolic deck, 3.0" rollers and multi-ply Habasit® belt provide smooth motion.

PIRI

· Polyurethane shock absorbers ensure just the right amount of cushioning.

Entertainment console with TV connectivity, web browsing and streaming audio

CT900ENT

The CT900ENT Treadmill combines the workhorse quality and construction of the CT900, with the beauty and innovation of an entertainment display for TV, web browsing and music streaming. Featuring a 15.6" touchscreen display, this console features intuitive function and design to make it quick and easy to get on and go. Robust construction and premium-grade components give users a smooth workout experience, whilst giving owners the peace-of-mind to know their equipment will live up to the rigors of consistent use.

2.40

The CT900ENT features a modern 15.6" touch screen display and electronics package allows your clients to watch TV, browse the web, and stream their favorite music. Present programs include a wide variety of popular workouts for the average user while fitness tests, heart rate programs and costum program are available for more serious users. The fitness test programs include: the Gerkin and WFI Protocol Fitness Tests, and 6 readiness Test Programs (Army, Navy, Air Force, Marines, Coast Guard, PEB).

User comfort was considered with the addition of the large adjustable grill cooling fan, five convenient accessory trays and ergonomically positioned Heart Rate Grips.

Our 900 series console was designed to be easy to use with intuitive program operation. The automobile industry "Ultra-Bright" blue LED displays with backlighting elements make the console easy to read. The program key along with numeric key-pad make for entering data easy, so your client can guickly start their workout.

It features the most effective workout, HIIT (High Intensity Interval Training) program along with 18 other options from Fatburn to Cardio. We also incorporate all of the military and other fitness test protocols. In addition to cooling fan, lap display & heart rate sensors.

ELLIPTICAL TRAINER

Created to work out with comfort and ease, the CE900ENT features the Spirit signature entertainment console for media at your fingertips. Users can watch TV, browse the internet or stream audio whilst working on their fitness with this 10.1" touchscreen display. This elliptical features a smooth pedal motion to minimize joint stress.

Entertainment console with TV connectivity, web browsing and streaming audio Optional TV Bracket Available, Built in Power Port for TV Remote

Built-in Generator

CE900

Workout comfort and performance were first in mind when the CE900 Elliptical was developed. From stride length and hand grips to pedal placement and flywheel inertia, this elliptical combines fit and function in one robust machine. Owners will feel secure that they've made a solid investment for their users' experience and their bottom line.

Optional(Black/Gray)

FEATURES

Our 900 series console was designed to be easy to use with intuitive program operation. The automobile industry's "Ultra-Bright" blue LED display with backlighting elements make the console easy to read. The program keys along with numeric keypad make entering data easy, so your clients can guickly start their workout routine.

It features the most effective workout, HIIT (High Intense Interval Training) program along with 9 other options from fatburn to Watts. In addition to a cooling fan, lap display and heart rate sensors. The integrated reading rack also works great with tablets.

The 900 features a modern 10.1" touch screen display that allows your clients to watch TV, browse the web, and stream theit favorite music. There are 9 programs from Hill to Interval to a Custom program that allows your clients to create their own workout. These 9 options with 40 different levels are sure to keep your clients motivated to achieve their goals. Ergonomically friendly pulse grip and multi-position handles are within reach for more variety of natural hand positions while a large adjustable grill cooling fan keeps your clients cool to encourage them workout longer.

AB900

The AB900 is a classic design of a classic modality. With its air-driven, isokinetic resistance system, this air bike is a powerful tool for all types of training situations — from low RPM, low load rehabilitation to high performance, high Watt output interval training. Resistance matches the user's effort and accommodates upper-body only and total body exercise. The compact design and eco-friendly rider-powered console allows the AB900 to be placed anywhere in a facility for easy programming integration.

- · Rider-powered, Bluetooth®-enabled console with program quick keys and full display.
- · Isokinetic resistance delivers simultaneous upper and lower-body resistance allowing the user to emphasize pushing and pulling or experience a total-body workout.
- · Highly durable to accommodate even the most challenging high intensity interval workouts.
- · Standard, integrated windscreen to prevent blowback for user comfort.

ROWER

CRW900

Whether placed in a commercial or quality home studio, this rugged indoor rower never disappoints. Guaranteed to enhance any grand environment, CRW900 is complete with a hand lacquered American Ash Blackwood finish.

Flawlessly reproducing the natural catch and consistent resistance of on-water rowing CRW900 packs a punch with 65% greater resistance than standard fluid models – the perfect rower for solid progression no matter the fitness ability.

Offering smart device connectivity, CRW900 features auto-adjust technology automatically correlating the chosen tank resistance with the console display for more a more accurate and efficient workout.

CRW900 seat height provides you with perfect easy on / off without straining your knees or back . In addition, it also creates a more effective catch/drive position for rowing training.

SPIRIT

- · Plus XL Patent Twin Tank Design.
- · Large and easy-read out screen.
- · Ergonomic Handle Design.
- · Textured Finish to Prevent Slipping
- · Wheel Brushes.

- · First-Grade America Ash.
- · Smooth Silent Seat Action.
- · Secure Heel Captures.
- Transport Wheels.
- · 65% greater maximum resistance

CB900

Integrating critical components for gym level performance

The needle bearings that encompass the pedals and flywheels axle, the industrial grade Hutchinson PK poly-V[®] belt, and our three piece crank work synergistically to create the perfect formula for durability and performance.

FEATURES

- The 64 kilogram frame consisting of 2.5 mm thick oval tubing and round
- \cdot bars enhance stability and longevity.
- To prevent sweat corrosion, double powder paint is coated. The concave • groove on the flywheel disperses sweat, extending the life of the flywheel.

VELO[®] RACING SADDLE

The Velo® Racing Saddle grants professional comfort. For more than 30 years on the market, the brand incorporates shock absorption, flexibility, lightness, cooling effects, and ergonomics into the construction of saddles. The CB900's saddle provides the same high quality.

SPIRIT 800 SERIES Building on our heritage and innovation

For over 30 years, SPIRIT has been committed to designing and manufacturing the very best fitness equipment available. The 800 Series continues this tradition and only the highest quality materials are used in our products ensuring exeptional durability and reliability in the toughest environments.

#MOVE YOUR SPIRIT

Ģ

TREADMILL CT800

The CT800 is stout and extremely durable, weighing in at over 350 lbs. The combination of the heavy-duty steel frame and aluminum console masts and side rails make it comparable to treadmills at much higher price points in the commercial market. The large workout area makes this model very appealing to walkers and runners.

Optional(Black/Gray)

Contact heart rate grips

FEATURES

- · Bright, tri-color LED console with programming very similar to our other C series consoles.
- Quick speed and incline keys to save time and make workouts more efficient.
- \cdot Contact and wireless heart rate options to help keep clients in their safe and effective training zone.
- \cdot Dual-drive motor cooling fans to protect and extend the life of the motor and control board.
- \cdot Maintenance free, hard wax deck system provides hassle free use for thousands of miles.

CT850

Designed to withstand the rigors of a commercial fitness environment, the CT850 features a heavy-duty steel frame, a durable powder coat finish and large steel console masts for ultimate stability and durability. The cool running, brushless 3.0 horse power AC drive motor adds to the reliability of the treadmill while providing the torque and smooth continuous power required by the unique needs of its users.

Optional(Black/Gray)

Convenient storage compartment

Ergonomically correct contact heart rate grips

- · Spacious 22" x 60" workout area to accommodate tall individuals.
- Bright, tri-color LED display is easy to use and consistent with other Spirit Fitness C-Series products.
- $^{
 m \cdot}$ Ten-digit key pad for easy program set-up and quick speed and incline adjustments during use.
- \cdot Contact and telemetric heart rate options to help keep clients in their effective training zone.
- · Multi-ply Habasit® commercial belt for superior belt life.

ELLIPTICAL TRAINER

The CE800 was specifically engineered for the commercial environment, from its heavy-duty steel frame to its durable powder coat paint finish. Its design focuses on convenience, comfort, reliability, and aesthetic appeal. Facility owners will have the peace-of-mind knowing they have a dependable machine while users experience a fluid total-body workout. **CE850**

The CE850 adjustable stride Elliptical Trainer combines our robust and compact front-drive elliptical design with the ability to customize your ideal stride motion from 18 to 24 inches. Our narrow 2" pedal spacing (Q-Factor), large cushioned pedals, and ability to simulate a walk/jog/run through electronically adjustable stride adjustment combine to give you the ultimate cardio workout for your users.

Optional(Black/Gray)

FEATURES

Optional(Black/Gray)

- \cdot Smooth, quiet 20" stride, which is the optimal distance for the average user.
- · Dual rollers on each pedal arm for a sturdier base
- \cdot Generator powered console means there is no need for electricity.
- \cdot 2 degrees of inversion at each foot pedal places the user in an anatomically correct position.
- \cdot 40 levels of resistance to satisfy the needs of beginners or advanced exercisers.
- \cdot C-safe power and communication capabilities for A/V control.

- \cdot Electronically adjustable stride length from 18 to 24 inches in $\frac{1}{2}$ inch increments.
- Multi-position hand grips with remote resistance and stride controls.
- \cdot Dual track with shielded concave roller wheel system for superior stability and durability.
- \cdot 2 degrees of inversion at each foot pedal places the user in an anatomically correct position.
- \cdot 20 levels of resistance to satisfy the needs of beginners or advanced exercisers.
- \cdot C-safe power and communication capabilities for A/V control.

S RECUMBENT BIKE

CR800

The CR800 Recumbent Bike is the perfect bike for the commercial environment. The step-through design makes it easy for your clients to get on the bike, and the easy-adjust seat allows them to find the most comfortable position. The console offers multiple programs, most with 40 levels of resistance and enough feedback information to make sure your clients never grow bored of the CR800. The extra-smooth ride comes from the perfect gearing and the integrated generator/flywheel system.

Fan to keep you cool

- · Contact and telemetric heart rate capabilities to make the workout more effective
- · Generator powered console means there is no need for electricity.
- · Oversized foot pedals with fast latching system.
- High density foam seat for extra comfort during a long ride.
- \cdot 40 levels of resistance to satisfy the needs of beginners or advanced exercisers.
- \cdot C-safe power and communication capabilities for A/V control.

UPRIGHT BIKE

CU800

The CU800 was specifically engineered for the commercial environment, from its heavy-duty steel frame to its durable powder coat paint finish. The design focuses on convenience, comfort, and durability. The console offers multiple programs, most with 40 levels of resistance and enough feedback information to make sure your clients never grow bored of the CU800. The extra-smooth ride comes from the perfect gearing and the integrated generator/flywheel system.

- \cdot Contact and telemetric heart rate capabilities to make the workout more effective
- \cdot Generator powered console means there is no need for electricity
- · Oversized foot pedals with fast latching system
- \cdot Dual spring seat with fore/aft adjustment for extra comfort and a custom fit
- \cdot 40 levels of resistance to satisfy the needs of beginners or advanced exercisers
- · C-safe power and communication capabilities for A/V control

S INDOOR CYCLE

CIC800

The CIC800 Indoor Cycle excels in three critical areas – durability, comfort and performance. It is a perfect addition to a club, corporate fitness/recreation center, school or hotel because the stout design will withstand hours of consistent use. The needle bearings that encompass the pedals and flywheel axle, industrial grade Hutchinson poly-v belt, and our three-piece crank work synergistically to create the perfect formula for durability and performance. The fore/aft/up/down adjustments of the handlebars and seat

along with SPD dual pedal design provide a comfortable fit for nearly any size rider.

- \cdot Magnetic resistance for smooth and consistent, maintenance-free operation.
- · Micro fore/aft adjustments on seat and handlebars.
- · Reliable pop-pin up/down adjustments on seat and handlebars.
- · Commercial grade Hutchinson poly-v belt is both smooth and reliable.
- · Molded rotary knob for comfortable resistance adjustments and quick-stop operation.
- · Dual pedal design provides options for both SPD and toe-clip convenience.
- · Aluminum seat and handlebar posts with stamped height settings for quick reference.

ROWER

CRW800

The CRW800 Rower combines a long list of high performance features with a reliable design. From the convenience of the 20" frame height and folding storage design to the combined air/magnetic resistance and remote handle controls, the CRW800 is sure to impress. It is the perfect addition to a corporate fitness/recreation center, school or hotel because the ease of use and resulting unparalleled full-body workout are second to none.

REMOTE HANDLE CONTROLS

CENWER

Quick keys for resistance changes Low battery indicator

FEATURES

- \cdot Air and magnetic resistance (16 levels) for smooth and consistent operation.
- · Wireless remote handle controls allow quick changes to resistance.
- Fold-up frame design for easy storage.
- · Commercial grade handle strap is both smooth and reliable.
- · Solid steel frame with aluminum monorail.
- · Durable stainless steel fan cover.
- · Flex pedals with easy-adjust numbered settings.
- · Adjustable console angle and height for the perfect viewing angle.

Optional(Black/Gray)

E-GLIDE

The CG800 eGlide Trainer was designed for groups / classes or individuals that like to create their own workout scenario in the commercial environment. It will appeal to both runners and cyclists as a cross training modality that is full weight bearing, without the impact. The unique Patented Direct Drive System, optimally weighted pedal arms, dual-action handlebars, 2° inverted foot pedals, and stride length combine to create the perfect formula to assure a frictionless stride. This motion creates what we call the "floating" effect. Once your clients reach a certain RPM, they will start to "float" and experience the smoothest possible gait pattern.

FEATURES

CGANN

- · Patented Direct Drive System produces a unique workout experience.
- · Infinite resistance adjustments to satisfy every fitness level.
- · Telemetric Heart Rate for hands free monitoring.
- \cdot 30 lb. flywheel generates the optimum amount of inertia.
- · Battery powered console means there is no need for electricity.

STEPPER **CS800**

The CS800 Stepper combines the familiar dependent stepping action with an arched step-rail design and impressive 16" maximum step height for an effective lower body workout. The narrow 2" pedal spacing (Q-Factor), large cushioned pedals, and solid handrail design combine to give you an incredibly comfortable and space-efficient cardio unit.

Optional(Black/Gray)

CRS800

The CRS800 Recumbent Stepper is the perfect solution for those clients wanting a low-impact, full-body workout, while performing a functional movement with minimal stress on lower body joints. The seated stepping motion utilizes a linked, linear motion enabling users to self-adjust the stroke length to accommodate their range-of-motion capabilities. The smooth stepping action is complemented with oversized cushioned foot pedals, linked natural upper body motion with large cushioned multi-grip handles, and a step-through frame design for users with limited mobility.

FEATURES

- 16-inch maximum step height with 20 levels of resistance satisfy the needs of beginners or advanced exercisers.
- \cdot 2 degrees of inversion at each foot pedal places the user in an anatomically correct position.
- · Arched step-rail design allows for a more natural stepping motion.
- Padded handlebars surround the user for a secure and stable workout.

- · Linked upper and lower body linear pattern.
- · Self-adjusting linear step range from 1 to 12.5 inches.
- Step-through frame design for users with limited mobility.
- \cdot High-density foam seat pads with recline and fore/aft adjustment.
- Cushioned and adjustable multi-grip handles for comfort and variety.

WHY SPIRIT FITNESS COMMERCIAL?

Because we know how to build strong products. For more than 30 years, Spirit Fitness has established and lived up to its legacy of engineering and manufacturing superior fitness equipments. Each unit is produced to exacting standards in our company-owned, ISO-certified factory to maintain quality and consistency.

The Spirit philosophy of continuous innovation produced many breakthrough features that have now become standard. Programs like Symmetry on our medical products that assist therapists in measuring the step length and pedal stroke, provide practitioners valuable information for the best possible care. From entertainment options to integrated fans and solid construction to smooth performance, these details are thoughtfully combined to enhance the users' workout experience. Our commitment to provide outstanding quality, performance and comfort is sure to exceed your customers' needs and your facility's expectations.

ABOUT SPIRIT FITNESS

Stunning in appearance, whilst ergonomic in design, Spirit combines fitness with an unforgettable user experience. With other products on the market, 'innovation' might imply unfamiliar product features masked by technological jargon. However, Spirit Fitness develops innovative designs that are truly relevant to the needs of both gym owners and home users. Since its launch in the U.S.A. 30 years ago, Spirit has withstood the test of time. We apply the latest technological advancements, whilst retaining the engineering prowess at the core of our products. This gives Spirit Fitness its backbone of excellence.

Our other passion has always been to innovate whilst improving our customers' experience. We were one of the first to integrate cooling fans into our products; a high-quality fan is now standard on nearly all Spirit Fitness products. Most of our products also feature speakers, because we understand that the number one reason why people stop exercising is boredom. By including a few finishing touches into our products, we know that you will work-out longer and achieve your fitness goals that much faster.

These, along with many other exclusive features, are designed into our products to help you to achieve success. Many companies produce fitness equipment, but few focus on the details that you will find in a Spirit Fitness product.

#MOVE YOUR SPIRIT

Well-known to be the largest geolocated video-sharing platform in the world, Kinomap provides training Apps to offer runners, cyclists and rowers willing to train on existing routes and energize their indoor training sessions.

Kinomap turns your bike trainer, exercise bike, treadmill or rowing machine into a powerful and fun fitness device. Choose a video and train on the Kinomap app. Watch your icon progress on the map as you follow the video. The app will change incline or resistance on your equipment to follow each video you choose in real time. Kinomap works on any training equipments / bike trainers using the camera of your smartphone or tablet. For an even richer experience, you can purchase an interactive machine. Find the right equipment by clicking the link below.

Join a multiplayer session! Compete on Kinomap's multiplayer platform (every hour on the hour). Join a session and see how you stack up against our other challengers.

All SPIRIT Bluetooth enabled equipments are now compatible with Kinomap. Join now and make your training session full with fun and excitement!
